

# NEWSLETTER

June 2021

Despite the challenging times, in May 2021 we have started the second year of our CIDiZen project (Challenge-based learning to promote cultural intelligence and diversity).

Partners have not met in person yet, but a solid partnership was established in the first year of CIDiZen. Thanks to the great commitment of all the partners, the tasks planned during this first year have been performed in time and the learning resources have been created according to the original planning.

## RESULTS AND NEXT STEPS

- **Digital Breakouts to develop young people's cultural intelligence:** under the lead of FIP, the partners have already produced a significant number Digital Breakouts and will complete their work on this set of resources by the end of June. The partners have been in touch by email and by video-calls to brainstorm ideas on the Breakouts and to agree on the topics each one is developing. The first Breakouts have been peer-reviewed and corrected according to the partners' feedback.
- **In-service training programme for youth workers:** Solution, the leader of this Output, and FO-Aarhus have developed sample modules of this programme and have peer-reviewed and corrected them. These modules have also been submitted to the feedback of external evaluators and Solution has corrected them accordingly. By the end of June, all the modules will be ready.
- **CIDiZen MOOC:** it is currently under development and INNOVADE is providing support and feedback to partners to adapt the Digital Breakouts to the requirements of the MOOC.

## PROJECT MEETING

The partners met on the 11<sup>th</sup> of June to discuss the finalization of the last Digital Breakouts and the modules of the in-service training programme by July.
