

# NEWSLETTER

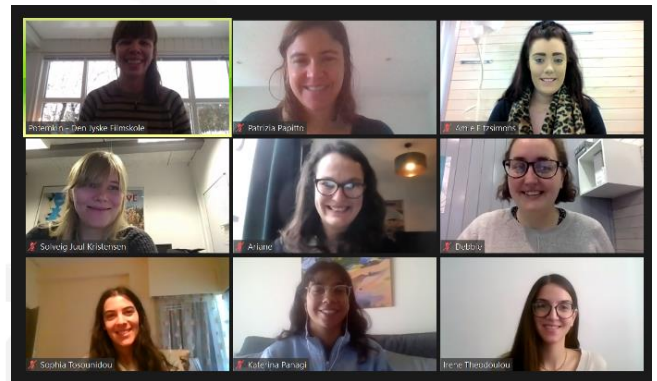

December 2021

We are now at month 18 of our CIDiZen project. Time flies!

Even if partners have not been able to physically meet yet – we are still hoping though! – the work has been properly done! Overall, we are in process of finalizing our CIDiZen resources before launching the translation process to be sure that all the work developed in the framework of the project can be easily implemented in local context. Indeed, CIDiZen will be piloted in Denmark, Ireland, Cyprus and France.

## RESULTS AND NEXT STEPS

- **Digital Breakouts to develop young people's cultural intelligence:** under the lead of FIP, partners have developed a total of 40 digital breakouts. They are now available on our MOOC and will be translated in national languages by the end of the year.
- **In-service training programme for youth workers:** The training programme is now finalized and has been produced by FIP. Partners are in process of translation and this task should be finalized before the end of January 2022. The training programme is also available on CIDiZen MOOC.
- **CIDiZen MOOC:** the MOOC is now available in English. Once all CIDiZen resources will be translated, they will be uploaded and available for testing in national contexts.

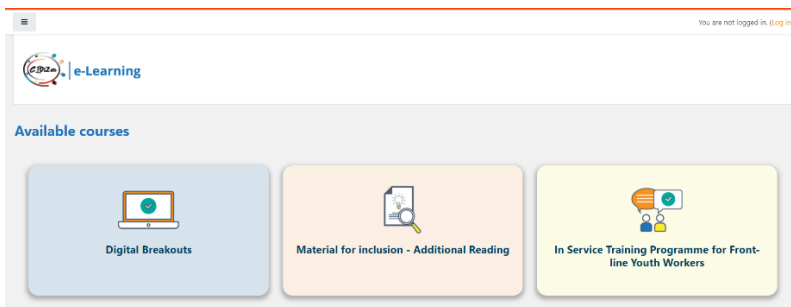

## Online Training Activity

On November 29, 30 and December 1<sup>st</sup>, partners implemented the second training activity of the project involving partners' staff to train them to create their own digital breakouts.
